Guide

Getting your business ready to 'get thru' is partly about planning and partly about developing practices to become more resilient. This short guide will take you through steps to help you with both.

Each area has a what, a how, and a why, as well as links to further resources or help at the end of the guide. It's not hard. There are simple, practical things that will get you well on the way to surviving in a crisis and potentially thriving in the aftermath.
