Ideas to Remember - Canterbury Earthquake Memorial

18 April 2016 [Canterbury Earthquake Recovery Authority \(CERA\)](#)

Case Study

-
-

CERA developed a community engagement process to inform the development of the Canterbury Earthquake Memorial. This case study describes the engagement process including a call for ideas, engagement with bereaved families and a First Knowledge Group, and consultation with the wider community.

From the start, engagement was planned alongside project planning and management of the design process.
